

Mounts easily on all bolt patterns:
VRP, Rossi, Yamato, Konig, Konny

New 2011 YOMATO "Hatchet" features:

- (A) YOMATO casting uses the very best heat-treated high strength aluminum alloy, cast by the latest "Lost wax technology". Not "Sand Cast" like the competition.
- (B) CNC Machined
- (C) Enlarged water pickups for MOD engines.
- (D) 10 bolt Torx-head case bolts
- (E) Conventional skeg design
- (F) Thin "R" dimension of 49mm (1.93")

RATIO's: 15:14, 14:14, 14:15, 12:14, 12:15, 11:15

UNIVERSAL MOUNTING: Bolts directly to VRP, Rossi, Konig, Yamato, and Konny

Superior "Aspect Ratio" for a definite speed advantage.
A very fast gear box. No "Gear Bulge" like the competition
